PROJECTS

Car Rental Management System

Project Report • July 2024- July 2024

• The Car Rental Management System is a comprehensive database management project designed to automate and streamline the process of renting cars. This system aims to provide an efficient, user-friendly solution for managing rental transactions, customer information, and vehicle inventory. The project leverages a relational database management system (RDBMS) to ensure data integrity, security, and accessibility.

Personal Portfolio

December 2023 - December 2023

• This personal portfolio is a sleek, responsive web application designed to showcase your skills, services, and projects in a visually engaging manner. Built using HTML, CSS, and JavaScript, the portfolio is crafted to provide a smooth and interactive user experience with modern design aesthetics.
